## HOW TO USE

- Take a piece of cotton cloth/ Jute/ sponge, Shake the liquid in the container and wet the cloth with "Stone Xtra Dura Deep"
- Apply on the polished surface of the stone.
- Let the applied surface dry up to 5 Min.
- Buff the surface with Buffing Machine.
- Get high glossy, laminate-like film with deep colour.

## NOTE

- › For better result use grinder like buff machine & Saw dust.
- › In this case let the **Stone xtra dura deep** to dry upto 15-30 mins.
- › Sprinkle saw dust (fine) over the surface.
- › Buff the surface using woollen pad attached on buff machine.

## Product Mixing Ratio (by volume)

Single Component

## Thinner / Cleaning Solvent

Ready to use (shake well before use)

## Caution

The applicators and operators must be trained, experienced and have the understanding and equipment to mix/stir and apply the coatings correctly and according to Nushar technical protocol. Applicators and operators shall use appropriate personal protection when using these products.

## Health and safety

Please study the safety precautions mentioned on the container. Apply the products under well ventilated conditions. Ensure that spray mist is not inhaled and skin contact with the product should be avoided. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. If the eyes feel any burning sensation then they should be flushed with ample water and the Doctor should be immediately consulted.

**Note: We do not undertake any legal obligation for the product as its proper application is equally important. We accept no legal responsibility for the work done even by trained applicators as we have no control over what they are actually doing on the site. The consumer has to first satisfy himself/herself by observing work done by us & by visiting our display gallery.**
